

# EOS Workbench

## Broker Workbench

### What is EOS Workbench?

EOS Workbench is a digital platform which provide intermediaries, (re)insurers and captives with the workspace to revolutionise workflow and client interaction.

Whether it be Accounts, Policy, Claims or Task Management, EOS Workbench will automate many of the day-to-day manual processes to enhance business workflow.

This focus on enhancing workflow and productivity allow for EOS Workbench to combine the customer journey and collection of data. The latter being imperative with the new London Market data requirements.

### Current Applications Include:

- Onboarding
- Statements
- Policy Compliance
- Task Management
- Quote & Bind
- Contract Checker

### EOS Workbench Headlines

**Client  
Configurable**

**Bespoke  
Branding**

**API  
Driven**

**Integrated with  
PAS solutions**

EOS Workbench is configurable to client requirements, aimed at scaling with the growth of each organisation. Alongside this, Morning Data work with clients to develop applications; we encourage clients and prospects alike to come to us with ideas as to how EOS Workbench can enhance their digital journey.
